<p>Specific Experience: Provided technical services to develop two levels of training for submarine noise silencing – introduction and refresher levels. CDIM converted hundreds of 35mm slides, reviewed and converted hundreds of analog video segments from VHS video-tapes, hard copy text graphics, music and photographs into electronic digital format utilizing special hardware (Dazzle/Movie Star Digital Video Creator II) and software (Dazzle/Movie Star Version 4.23) to produced compact disk (CDs) for the Norfolk Naval Shipyard Ship Silencing Branch Code 264. The resultant products were two multi-Chapter, multi-media Microsoft PowerPoint electronic slide shows with paper presentations incorporating digitized photographs, digitized slides, digitized VHS tapes, digitized technical manual information and transferred AutoCAD drawings and flow charts, Instructor’s Guides, Student Guides, Deckplate Pocket Guides for Inspection Criteria, Testing Materials and Laboratory Practical Materials. Both levels of training could be presented by an instructor or with student-computer interface (self-pace).</p>
