

<b>Zones &amp; SOW Functional Area(s) supported:</b> All; 3.8	<b>Contract # and Value:</b> Northrop Grumman Ingalls Shipbuilding Purchase Order PR-7052 for General Provisions for DDGs 103, 105, 107 & 110; ADI Technologies Purchase Order # MC 5311; \$12,000	<b>Company:</b> George G. Sharp, Inc.	<b>DOC:</b> On going <b>GOVT POC:</b> M. Collins (703)734-9626
<p><b>Specific Experience:</b> ADI Technologies P.O. to Sharp for ILS support services for the MAFO-HOLTKAMP Quick Acting Watertight Door which has been purchased through an Engineering Change resulting in 162 MAFO-HOLTKAMP Quick Acting WTDs for DDG 51 Class Hulls 103 and follow and PSA installs on earlier hulls. The ILS package purchase is included as non-recurring costs in the first shipset purchased under DDG 103. NGSS has contracted to MAFO to provide both the doors themselves and the associated ILS. MAFO in turn through their U.S. marketing representative has contracted to Sharp to provide 2 SCDRLs via P.O. from ADI: Technical Manual Plan and Human Engineering System Analysis of the MAFO Door. The Human Engineering System Analysis, SCDRL E16 will be developed in accordance with MIL-H-46855B as defined in the DID.</p>
